MAKE-UP ARTIST

ABOUT ME

I am a freelance Make-up artist specialising in special effects and sculpting. My other skills include wig making, mould making, body painting and beauty makeup. I am based in Norfolk but can travel and have connections in the Midlands area. I have spent the last four years training in Make-up Artistry and have a level 3 diploma in Media Makeup and will be completing my BA (HONS) degree in Media Makeup in June. My passion for makeup comes through a love of all things creative. My favourite thing about the industry is that every day is different and you never stop learning.
